Working in Partnership with the

Institute of Environmental Management &
Assessment (IEMA)

FREE LECTURE

Wednesday 28th April 2004 at 7.30 PM

*The International Research and Graduate Centre
Westlakes Science & Technology Park, Whitehaven, Cumbria*

“Decommissioning Redundant Offshore Oil & Gas Platforms”

Ian Prince, Wood Group Engineering, Aberdeen

The lecture provides:

- An overview of the different types of platform that are in the North Sea
- An overview of the regulatory requirements for removal of offshore installations
- A case study, looking at the decommissioning of the Brent Spar and the challenges the project team faced.

The lecture will be a combination of PowerPoint and video presentation, and will emphasise the environmental considerations and how they were managed.

To avoid disappointment please reserve a seat: contact Wendy McBain on 01946 514112, or email at wendy.mcbain@westlakes.ac.uk
